

Can you understand me?

Would you like to help me?

try to know the learning difficulties!

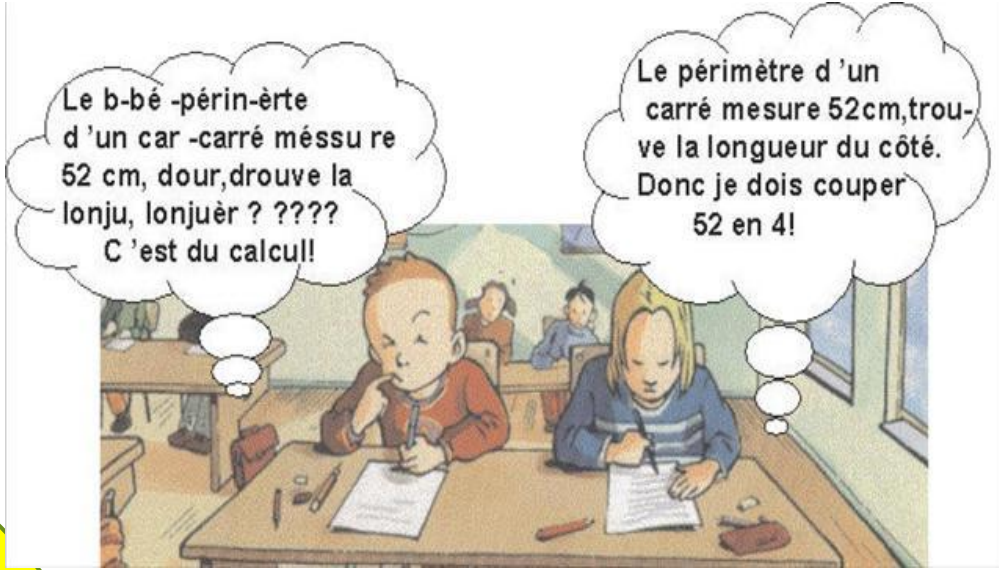

even though I'm as smart as you,...

...I sometimes don't understand what I read

... Spelling words, I find that difficult.

I'm dyslexic: it's not a disease, it's a disorder. And it's permanent.

Be patient! I read slowly.

When I write words, the letters get mixed up and I say "guvette" instead of "cuvette", "clam", instead of "calm"

...I read better in my head than I read out loud

I read "through my eyes" or "through my ears"

My doctor says I'm a guesser: I don't read the words, I guess them. Sometimes I am wrong.

I do not understand
the enumeration

Neither subtraction

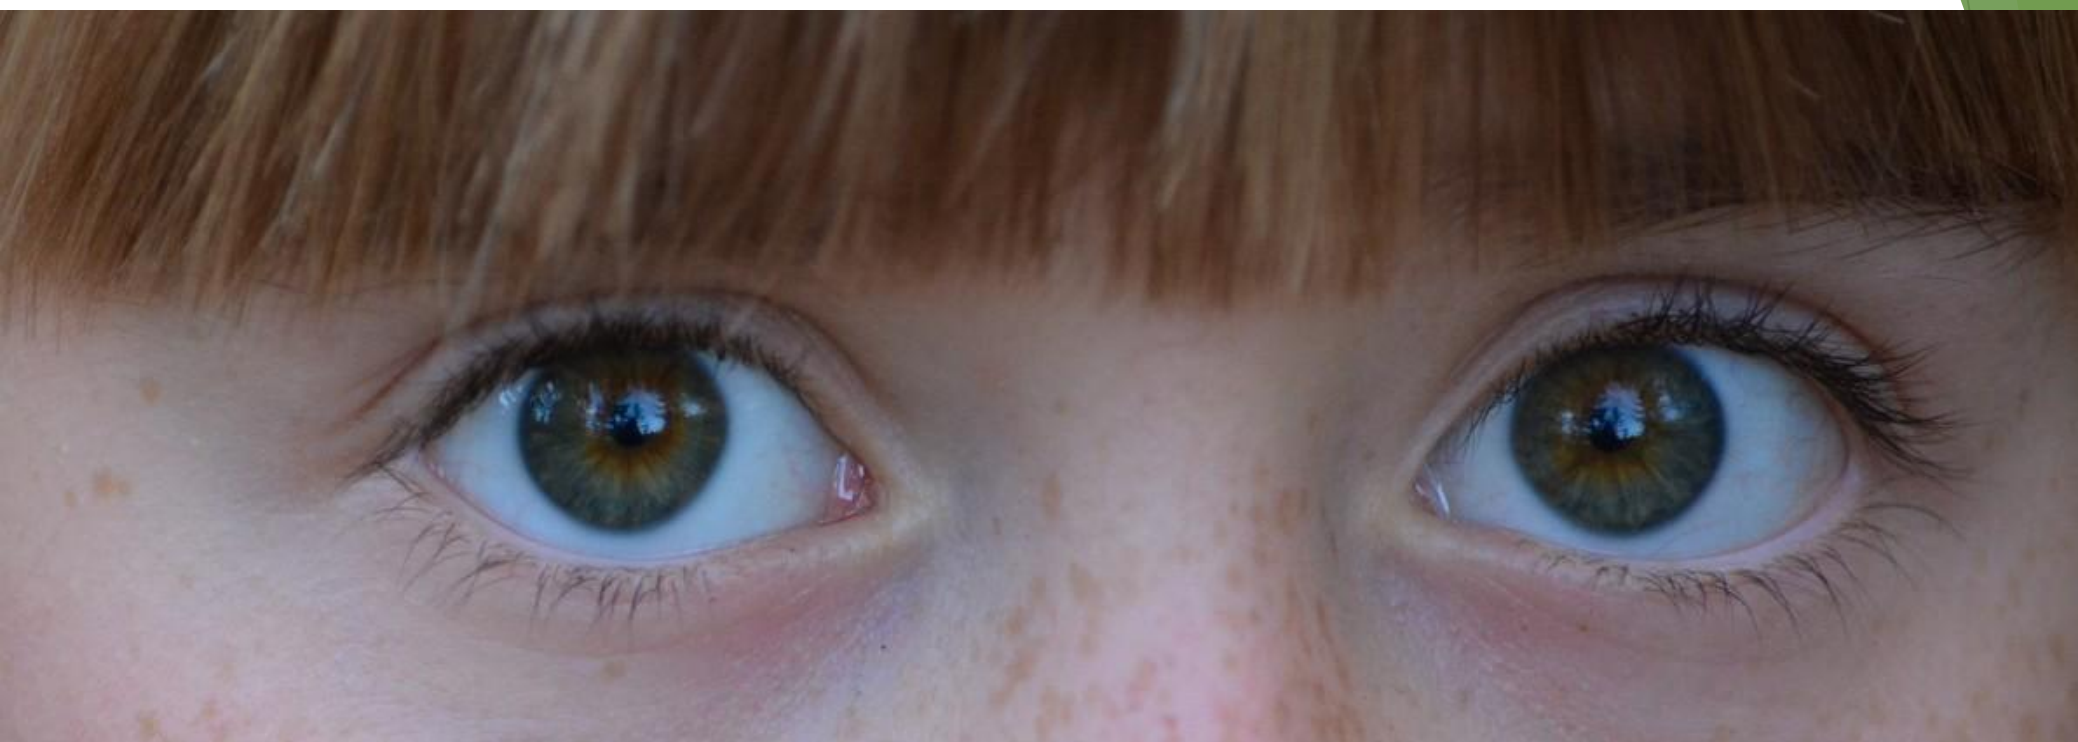

Nor the division

Neither the addition
